

Superior Clamping and Gripping

SCHUNK Adapter Plates

Systematic Accuracy

Adapter Plates

for SCHUNK Gripping Systems

For precise Connections! SCHUNK Adapter Plates

SCHUNK adapter plates can be used to create hose-free combinations of gripper, stroke, and rotary modules that are process reliable, quick to install and do not require extra engineering.

Upon request, we can offer you a wide variety of adapter plates for standardized SCHUNK functional assemblies.

Upon request, we design and produce the SCHUNK interface adapter plates to fit precisely. Whether they are needed for a combination of gripper and rotary modules, for a process reliable interaction between robot accessories modules, or for individual automated assembly solutions.

Benefit from our know-how and our depth of integration.

SRU-plus

Universal rotary module

PGN-plus

2-Finger universal gripper with multi-tooth guidance

Precise

The screw connection diagram is adapted to each component's geometry, ensuring precise mounting, free from play and twisting.

Integrated

Internal media feed-through prevents cable tangling or breakage and increases life span.

Harness the benefits of SCHUNK adapter plates

- **No time consuming in-house production**
- **Complete accuracy of fit** due to **standardized interfaces**
- **Optimal air and cable feed-through** increases the life span of cables
- **Shorter project lead times** due to standardized systems
- **Process-reliable implementation and planning security** without extra project costs e.g. due to module connection confusion
- **Complete gripping systems** from one source
- **Standardized functional modules or functional assemblies** fitted on request or ready for use
- **Time savings and no extra costs** for additional engineering work and customized production

Adapter Plates

for SCHUNK "End-Of-Arm" Robot Accessories

The individual Connection! process-reliable "End-Of-Arm" Handling Solutions.

SCHUNK adapter plates ensure complete precision of fit between robot accessories modules and ISO flange interfaces.

Geometrically customized to your needs: adapter plates with a large center bore, integrated media feed-through or individual screw connection diagrams ensure unrestricted freedom of movement in your robot applications.

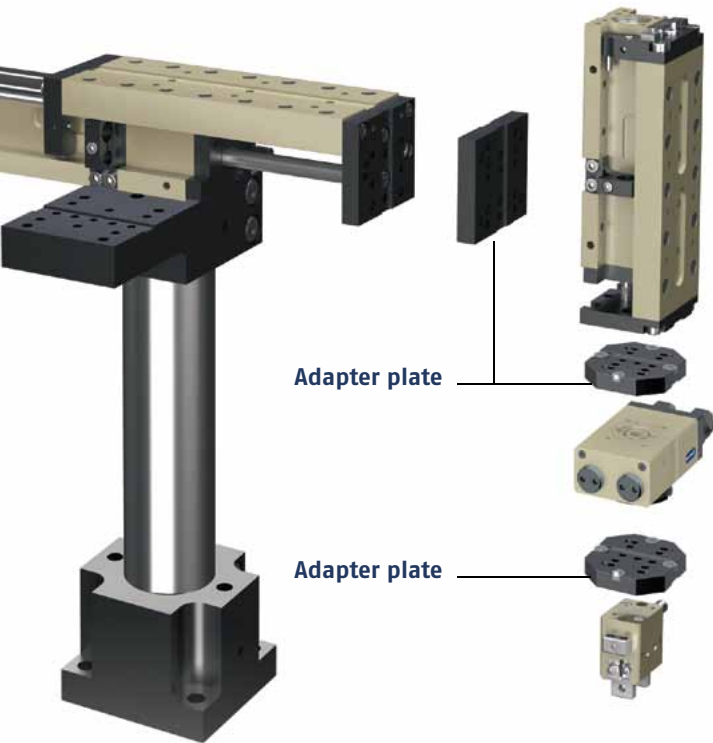

The extensive robot accessories range and the appropriate adapter plates from SCHUNK ensure process-reliable handling solutions. Comprehensive, secure and flexible!

The flexible Connection! Freedom for your automated Assembly!

Use adapter plates to flexibly connect a wide range of different modules from the SCHUNK system for your automated assembly automation.

The modular SCHUNK system offers the world's most comprehensive selection of standardized linear, rotary, and gripper modules for the automated assembly. The use of precision-fit SCHUNK adapter plates provides for perfect customer-specific, individual handling solutions can be implemented. Just a few standard modules are necessary for creating an enormous variety of automated solutions. Quickly, easily and professionally!

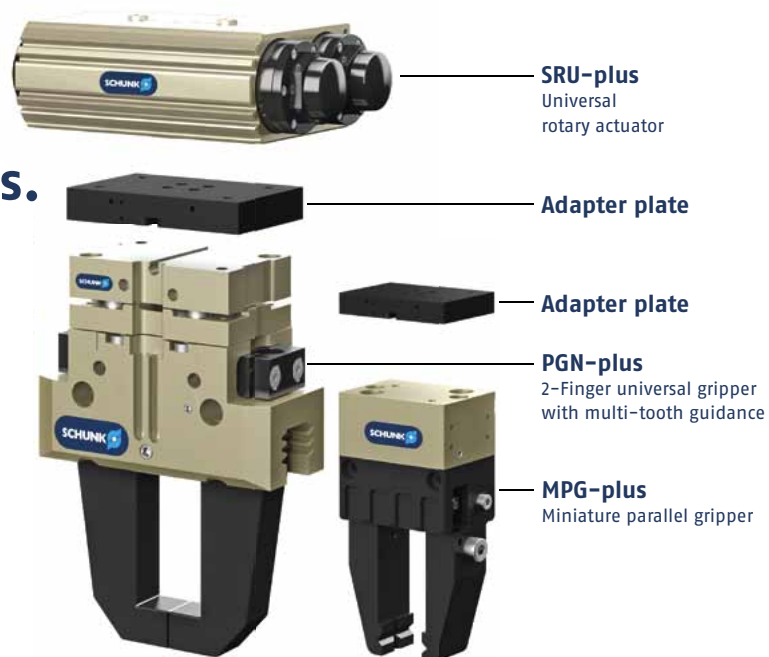

Perfection and speed

With 100 picks per minute, the servo-electric PPU-E is the quickest pick & place unit on the market. SCHUNK adapter plates ensure reliable connections between the PPU and gripper. More cycles and greater productivity.

The perfect Connection! Standards for Gripper / Rotary Module Combinations.

Standardized adapter plates from SCHUNK – the easiest and quickest connection for you. Available for almost all common gripper and rotary modules. 100% precision fitting due to parameterized screw connection diagrams. Fast delivery times, manageable costs. As a standardized functional module or fitted ready for use as a functional assembly on request. It's your choice.

Superior Clamping and Gripping – It's time to make use of your machine's full potential!

With superior components, we find potentials where you would never expect to find them. In your machine. SCHUNK Synergy – the perfectly harmonized interplay of clamping technology and gripping systems turns our customers into productivity champions.

Grab hold of our promotional offer and get SCHUNK adapter plates free of charge!

Order a combination of gripping system modules now and we'll throw in matching adapter plates for free. Benefit from a greater degree of integration at no extra cost and without additional engineering.

To take advantage of our free adapter plates offer, simply complete the request form and fax it to +49-7133-103-2615.

On request, your SCHUNK technical consultant will contact you without delay.

I am interested in

- ☐ Turning and gripping for universal application, including **free adapter plates**
- ☐ Robot accessories handling solution, including **free adapter plates**
- ☐ Solutions from the SCHUNK modular assembly automation system, including **free adapter plates**

This offer is valid until December 31, 2014.

☐ I would like a SCHUNK technical consultant to call me.
