

Produkt Information intermediate sleeves GZB-S

Advancement of our GZB-S sleeves

Dear Sir or Madam

We meet the challenges of the international competition and are continuously improving on our products in efficiency, design and look. The functionality will retain fully the same.

Following complements will be done:

- Intermediate sleeves GZB-S ICS and GZB-S PC (see Toolholding Systems Catalogue Pages 239 – 244)
- New Design – the contact surface are furthermore precisely grounded
- Increased corrosion protection – as an added benefit
- New Look (see pictures)
- Types Ø12 and Ø20 – the conversion takes place currently
- Types Ø32 – will follow afterwards

Signed: Gerold Schäffer, 10. März 2014
