

SCHUNK eGrip Finger Designer

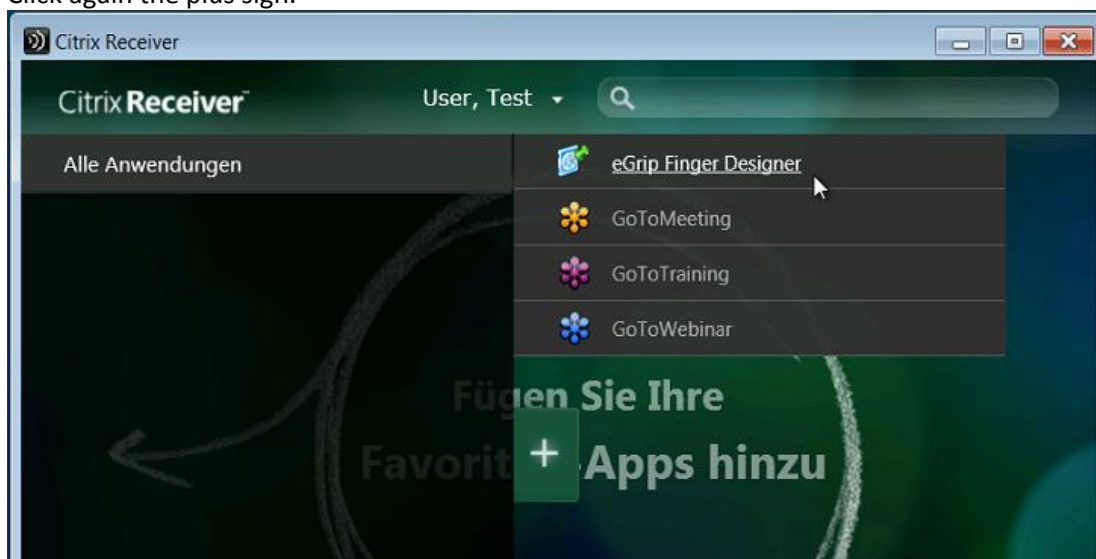

1. Establish a VPN connection with SCHUNK
2. Open the Citrix Receiver with a double click

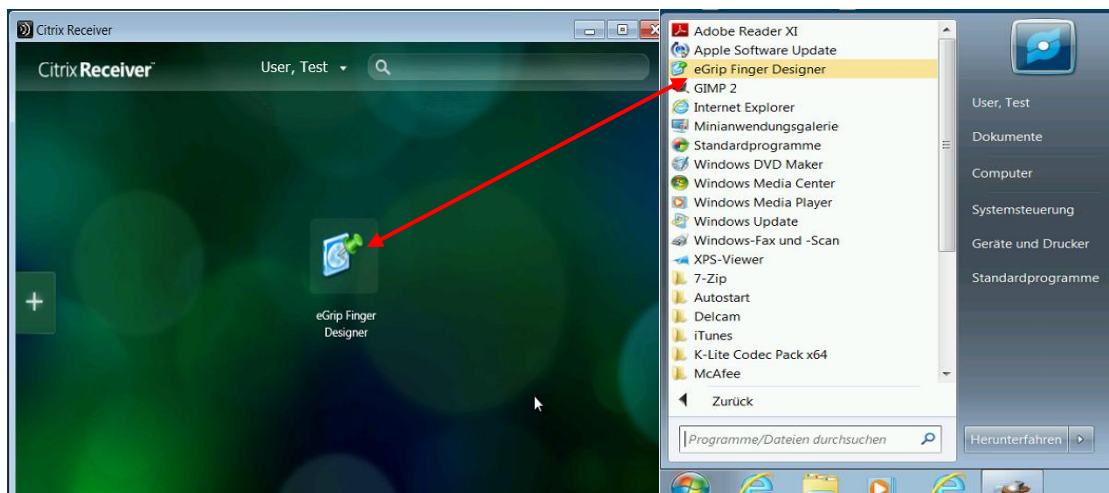

3. Enter your username and password (same as Windows login)
activate „save password“

4. Click the plus sign and select „all applications“.
Choose the eGrip Finger designer.
Click again the plus sign.

5. eGrip Finger Designer will always appear in the Citrix Receiver and in the Windows start menu.

6. eGrip starts now either with the eGrip Icon in the Citrix Receiver (see item 2) or via the start menu. For both you need an existing VPN connection.
