

A photograph of four men in a factory setting. Three of the men are wearing blue work shirts, while the man in the center is wearing a light blue button-down shirt. They are all smiling and holding various industrial clamping and gripping tools. The man on the left holds a large metal vise. The man in the center holds a circular metal plate with multiple holes. The man on the right holds a small metal drill bit. The background shows a factory floor with various equipment and structures.

Magazin

Gripping jaw

Customer benefit

Space saving concept

Low total cost of ownership, compared to conventional systems, where complete gripper must be exchanged

Tailorable sensor concept:
presence of jaw inside magazin up to correct jaw in the gripper. RFID technique possible

No additional power supply needed
