

ASM – Handbuch – Installation iPad

(ASM = Assisted Service Module → Shop in Kundensicht)

1. Öffnen von „Apps @ Work“

2. Auswahl der Kategorie „Uncategorized“

3. Installation der App „MobileIron Web@Work“

The screenshot shows the App Store interface on an iPhone. The top status bar indicates the carrier is Vodafone.de, the time is 18:53, and the battery is at 91%. The browser address bar shows mobile.schunk.com. The app list is categorized under 'Uncategorized'. The apps listed are: DocScanner (Uncategorized, 0 reviews), MobileIron Mobile@Work™ Client (Uncategorized, 0 reviews), MobileIron Web@Work (Uncategorized, 0 reviews), Prezi Viewer (Uncategorized, 0 reviews), sli.do (Uncategorized, 0 reviews), SNCF (Uncategorized, 0 reviews), and UTA Stationsfinder. The MobileIron Web@Work app is highlighted with a red box. Below the app list, the app's details page is shown. The app is labeled 'MobileIron Web@Work - MobileIron' with 0 reviews. The status is 'Prepaid' and the 'Reinstall' button is highlighted with a red box. The 'Details' tab is selected, showing a description of the app and a 'More' link. The bottom navigation bar includes Home, Categories, Search, and Updates.

Details Reviews

Details

MobileIron Web@Work allows you to easily and securely access your organization's web content on your iPad, iPhone, or iPod touch. Web@Work works with your organization's MobileIron infrastructure to provide access to internal web content without a separate VPN connection, view bookmarks based on your role, and ensure that all sensitive data is secured.
